

Project Design Phase-II
Solution Requirements (Functional & Non-functional)

| | |
|---------------|--|
| Date | 18October 2022 |
| Team ID | PNT2022TMID49628 |
| Project Name | Project - University Admit Eligibility Predictor |
| Maximum Marks | 4 Marks |

Functional Requirements:

Following are the functional requirements of the proposed solution.

| FR No. | Functional Requirement (Epic) | Sub Requirement (Story / Sub-Task) |
|--------|-----------------------------------|---|
| FR-1 | User Login | <ul style="list-style-type: none">• Login into the application |
| FR-2 | User filling the Required details | <ul style="list-style-type: none">• Enter the grade & CGPA• Enter the University ratings and other details. |
| FR-3 | Analyzing | <ul style="list-style-type: none">• Analysis user credentials and compare with universities criteria. |
| FR-4 | predicting | <ul style="list-style-type: none">• Predicting the probability for getting admissions in the universities by analysing various machine learning algorithms. |

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

| FR No. | Non-Functional Requirement | Description |
|--------|----------------------------|--|
| NFR-1 | Usability | <ul style="list-style-type: none">• No training is required to use the website.• The form, home, about, FAQ and analysis pages load up within 10 seconds.• The results from the predictor should not take more than 30 seconds . |

| | | |
|-------|---------------------|---|
| NFR-2 | Security | <ul style="list-style-type: none"> The system shall provide password protected access to the website to all users – students and admins. |
| NFR-3 | Reliability | <ul style="list-style-type: none"> The system shall be completely operational all hours of the day unless system failure or upgrade work is to be performed Down time after a failure shall not exceed 24 hours . |
| NFR-4 | Performance | <ul style="list-style-type: none"> The mean time to view a web page over a 56kbps modern connection shall not exceed 5 seconds. |
| NFR-5 | Availability | <ul style="list-style-type: none"> Users will be able to access the system predictor at any time, anyplace, as needed. |
| NFR-6 | Scalability | <ul style="list-style-type: none"> It can handle any amount of data and perform many computations in a cost effective and time-saving way. |
